MEMORANDUM FOR: Acting Director of Central Intelligence

FROM: William F. Donnelly
Deputy Director for Administration

SUBJECT: Weekly Report for Period Ending 9 January 1987

3. Office of Information Services and Office of Personnel (OP) representatives are discussing establishing a student co-op program with the College of Business and Public Administration, University of North Dakota, one of the few universities that offers a curriculum in information management. The pilot program, if approved, would be for one or two students.

25X1 7. The database management system being used for the development of Corporate Data systems, Information Database Management System/Relational (IDMS/R), went into production [redacted] on schedule. The first application, Budget and Accounting Resources System (BARS), is scheduled to go into production in early February.

8. The Offices of Logistics and Information Technology have agreed to redirect the Commercial Logistics Application System (CLAS) project by using Cullinet, Inc., software packages rather than continue with the Management Science America (MSA) software packages originally selected. Deterioration of MSA's support and possible lack of future development of their software put MSA's commitment to the product in question. The change to Cullinet software will facilitate a more complete integration of CLAS and BARS.

9. As of 5 January 1987, the Agency's Combined Federal Campaign Staff had received contributions totaling \$412,620.62, or 91 percent of the Agency's 1986 goal of \$450,000. About 6 percent of the pledge cards are still outstanding. The Educational Aid Fund has received contributions totaling \$62,431, as compared with \$59,264 by the end of the 1985 campaign. Contributions to the Public Service Aid Society total \$36,211, as opposed to \$34,012 at the end of last year's campaign.
